

Safe and clear communication despite protective screens, acrylic glass panels, splash guards and hygiene walls

Since the COVID-19 pandemic outbreak, screens made of safety glass or acrylic glass equally protect staff, patients and customers.

The TALKSAFE ensures clear and intelligible communication at checkouts, information desks, etc. despite protective measures, safety distance, hygiene walls and face masks.

The TALKSAFE is a safe, hygienic and flexible solution which is particularly suitable for acrylic walls and acrylic cubicles at pharmacies, doctors' surgeries, shops and supermarkets as well as for visitor boxes in retirement homes. Thus, facilitating consultation and communication.

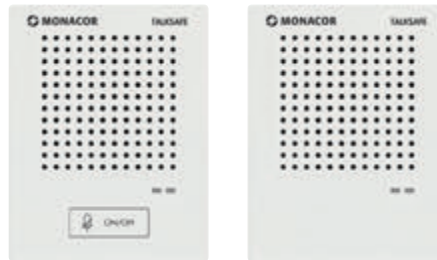

TALKSAFE

Order No. 1000189
